

Settle

Gordi

White-knuckled overpass
Feeling sick from looking at
The TV screen in the back of a cab
How long we talking now?
This time, let's just not count
Nothing's gonna change us now

It'll settle
You'll settle down
It'll settle
You'll settle down
You'll settle
It'll settle down
You'll settle
It'll settle down

He was like a new-cut key
A footstep in the wet concrete
Without them, where the fuck would we be?
Look at us, a work of art
Hanging in each other's hearts
Who else travels this damn far?

You'll settle
It'll settle down
You'll settle
It'll settle down
You'll settle
It'll settle down
You'll settle
It'll settle down

And you'll settle
It'll settle down
And you'll settle
It'll settle down
And you'll settle
It'll settle down
You'll settle
It'll settle down

You'll settle
It'll settle down
You'll settle
It'll settle down
You'll settle
It'll settle down
You'll settle
It'll settle down
