

## Dreamdrift

Gordon Lightfoot

I'm like a drifter and I'm drifting along  
I might go swifter but the wind is so strong  
My body tells me I should let it slow down  
Still, I keep wishing I was in the next town  
In dreams, I'm drifting on a sea of dismay  
You should not meet me when I'm feeling this way  
I'm still a drifter and I'd like to hold on  
I could go swifter but the road is so long

I'm still as crazy as I always have been  
I could get lazy but my shoes are too thin  
My radar tells me there's a ghost at my side  
Still, I keep walking and the ghost gets a ride  
I drift in limbo on a bed of thin air  
I see a bimbo and there is nobody there  
I'm still as crazy as I always will be  
I could get hazy but the road is on me

I'm like a drifter just like I always was  
They call me mister there is no special cause  
My sister tells me I'm a sight to behold  
My daughter tells me to come in from the cold  
I get to heaven and there is no one around  
You should not meet me when I'm back down on the ground  
I'm still a drifter but I like to hang on  
I could go swifter but the wind is so strong

I drift in limbo on a bed of thin air  
I see a bimbo and there is nobody there  
I'm still as crazy as I always have been  
I could get hazy it's the space I am in
