

## E-Motion

Gordon Lightfoot

Having said everything I ever wanted to say  
Should I still feel uncool or uptight?  
Even my e-motion online tonight

Show me a way to get into your dreams, and I'll  
Do anything that your heart could desire  
Show me a way to come under the light, of your  
Love everlasting, my heart is on fire

When I turn on the radio, and it's our song  
Should I still feel uncool or uptight?  
Even my e-motion online tonight

Show me a way to go into your thought, and I'll  
Do anything, that would be heavenly  
Show me a way to come under the spell  
Of your love everlasting to watch over me

You know, I've proven myself to be a king-sized fool  
Should I still feel uptight or uncool?  
Even my e-motion out of control

Show me a way to get into your dreams, and I'll  
Do anything that your heart could desire  
Show me a way to come under the light, of your  
Love everlasting, my heart is on fire

You know, I've said everything I ever wanted to say  
Should I still feel uncool or uptight  
Even my e-motion online tonight  
When I turn on the radio and it's our song  
Should I still feel uncool or uptight  
Even my e-motion online tonight  
Even my e-motion online tonight
