

## Sadistic Bliss

Gorgasm

Hopeless you're struggling, there's no escaping this sadistic  
ritual. You'll endure, bound and stretched stripped naked before  
me  
Hacking as I incise, carving into your corpulence  
Clawing, fingers pulverized  
Face obliterated blood spurts from her eyes  
Torture, stimulates desire  
She reeks of death!  
Slowly I work my knife, until I'm satisfied  
Digging through cavities, her stench overwhelming me  
Sever the head, I sometimes leave dangling  
Grinning through chunks of her flesh  
Anticipating my next victim, fuming with hostility  
Strike her down with vicious rancor  
Force them all to watch in horror, as I finish off the last  
Frenzied screams ignite my bliss  
Mauling, filthy, whores.  
Bludgeoning, lacerate, sodomize, suffocate  
Fuck her with whatever objects I can find  
No slit goes unpunished shove my cock... Inside  
Exit the wound, tearing the flesh, barely alive, screaming for  
death  
Force in my cock, deep in her throat, ending her life as I'm bl  
owing my...load!
