

Overdose

Gorgon City

(Overdose on me, overdose on me)
Overdose on me, overdose on me

These hollow grounds were sacred binds
Well the love we found is all I need
Tread in heaven now 'cause the days run out
Oh, I'm burning down, don't need to sleep

And chemicals are [?] now
Chemicals in me
Every little slow down
[?]
I don't even know now
Know now

Lakes of snow
Liquid cloak
Hold me close
Overdose on me, overdose on me
Overdose on me, overdose on me
Overdose on me, overdose on me

Rest in peace, slipping away
There's no need to tease
So high tonight
Can you feel the heat
Need you suddenly
So we can repeat
This love in fire

And chemicals are [?] now
Chemicals in me
Every little slow down
[?]
I don't even know now
I don't even know now

Lakes of snow
Liquid cloak
Hold me close
Overdose on me, overdose on me
Overdose on me, overdose on me
Overdose on me, overdose on me

Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home
Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home

Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home

Burning light, crystal eyes
There's no right or wrong
Overdose on me, overdose on me

Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home
Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home

Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home
Burning light, crystal eyes
There's no right or wrong
Sky high, safe flight
Clouds are our new home
