## Real

**Gorgon City** 

You and I Were so in love Nothing could ever come between us Now me and you We're so confused And now we're left in broken pieces I know that the faster you rise is harder you fall. We were one Now we don't care at all You and I Just can't be free Now all I know is that we used to be real You and I Were far too young Thought we knew what we were feeling But me and you We had no clue And now we're lost and have no meaning We know that we need to let go It's the end of the road, don't go back We can get by on our own. You and I Just can't be freed Now allll I know is that we used to be real We used to be so real, heeeey Ain't no happy ending when We're living life pretending No answer to our questions We are just too far gone, remember We had everything We were so complete But now we're nothing like we used to be, heeey We used to be real We used to be so real We used to be, we used to be You and I Were so in love Nothing could ever come between us Now me and you We're so confused And now we're left in broken pieces

I know that the faster you rise, is the harder you fall We were one Now we don't care it all You and I Just can be free Now all I know is that we used to be real Oh, we used to be, we used to be We used to be real We used to be so real Oh, real, real, real We used to be real.
