

# Start Over

Gorgon City

I wanna know what's it like  
To fall in love for the very first time  
I wanna look in his eyes  
To see the light to guide me through this end  
I wanna walk through the fire  
Inside I got this burning feeling  
Can you show me how to fly?  
So I can finally face my fears

Start over, start over  
Start over again  
Start over, start over  
Start over again

Took myself out of line

I told myself I had time  
I taught myself how to lie  
I was good at hiding away  
From everyone outside  
When I look back and it's done  
And I wish I had more fun  
But now it's time to look ahead  
Decide who I become

Start over, start over  
Start over again  
I just wanna start over, start over  
Start over again  
I just wanna start over ooh, over ooh  
Over again  
I just wanna start over ooh, over ooh  
Over again

One foot out, one foot in  
One foot in, then one foot out

Start over, start over  
Start over again  
I just wanna start over, start over  
Start over again
