

Satan-Prometheus

Gorgoroth

We're sons of blind faith kneeling to follows christ
Children of night, life's too short by the fear
Forbidden knowledge obscured by a ... creator
The serpent ... only ... life in the lost

Satan-Prometheus

So long in disconnection
Centuries ... in furnace
The time of the ice now will descend
And ... for the one

Satan-Prometheus - Satan-Prometheus
Satan-Prometheus - Satan-Prometheus

See the hordes ascend
Crushing the face of god
See the horns rise
The eternal reign of Satan
