

# The Virginborn

Gorgoroth

I've come to bestow you this crown of scorn  
Destined to be cast down  
And folded in earth  
Resent me  
Sworn enem of the weakened heart  
Cursing the miracle  
Leech of the sun  
Darkness that will overcome  
Insurrection displayed  
Mark the path in his flesh  
And blast the way  
Wage the war  
Madness awakes and reveals its face  
Truly immeasurable  
Hidden in all  
Insane celebration  
Salvation's unborn  
Violent is the rapture  
Blasting the virginborn
