

Magic

Gorilla Zoe

Uh
Cliffy D back again
Gorilla Zoe
Hood Nigga
Kingery
It's magic

Pull up to the party right now, what you talking 'bout?
Pull up with a little bust down, watch her bust it down
I might tell a bitch like no way, what you talking 'bout?
Pull the rabbit outta my hat, everything I do is
Magic, magic, magic, magic
Magic, magic, everything I do is
Magic, magic, magic, magic
Magic, magic, everything I do is

Pull up to the club in a F-150
Do a little dip and that bitch ain't skinny
Sing it to a bitch like I'm Mitch Tenpenny
And that frame came with her like [?]
Fucking that bitch and I'm gone
Don't give a fuck what she said 'cause I'm grown
Don't give a fuck if she there when I'm on
Hit it one time and I'm onto the next one

I don't care what you doing right now
Tell that bitch I say goodnight, you know I'm mobbing right now, yeah
(Let's go)

Pull up to the party right now, what you talking 'bout?
Pull up with a little bust down, watch her bust it down
I might tell a bitch like no way, what you talking 'bout?
Pull the rabbit outta my hat, everything I do is
Magic, magic, magic, magic
Magic, magic, everything I do is
Magic, magic, magic, magic
Magic, magic, everything I do is

Put the party on a bus (bus)
They bring the party to us (they do)
Popping pills, that's alchemy
Now they falling in love with us (they is)
Like a water balloon she bust (she bust)
She can't see the difference from love and lust (and lust)
Me I'm just trying to run it up (it up)
Ice up, I add it up, calculus
I'm from a different division
I can make a mil pop up out the kitchen (woo)
The vision's giving me predictions
How am I not a magician?

Pull up to the party right now, what you talking 'bout?
Pull up with a little bust down, watch her bust it down
I might tell a bitch like no way, what you talking 'bout?
Pull the rabbit outta my hat, everything I do is
Magic, magic, magic, magic
Magic, magic, everything I do is

Magic, magic, magic, magic
Magic, magic, everything I do is

Everything I do is
