Gorilla Zoe

You tell me what you want  
then expect me to believe  
but I know you're lyin'  
I can't tell what's real  
between all of your lies  
I live in delusion  
You're so much confusion  
These illusions  
There's so much confusion  
These illusions  
I live in delusion  
You keep on usin' me

Got me all alone  
waitin' by the phone  
my friends keep tellin' me  
I need to leave yo ass alone  
If you don't want my love  
you need to stop leadin' me on  
tellin' me you love me  
you've been lying all along  
(let's go!)

Some people don't realize what they possess  
until it's gone  
they point the blame at others  
can't admit when they're wrong  
so stop wastin' my time  
cause you just keep on lyin'  
and I just can't believe that you keep playin' with my mind

Illusions  
I live in delusion  
so much confusion  
these illusions  
I live in delusion  
you keep on usin' me  
Vampire!

You took my broken heart  
and sucked it even drier  
you're such a great liar  
you're just like a vampire  
I know I wanna go  
I wanna leave and walk away  
but your lovin' makes me stay  
you're just like a vampire  
like you got a taste for blood  
you suck up all my love  
I don't know why I give it up  
you're just like a vampire  
you use me like a drug  
and when you're finished with me  
you sweep me under the rug  
you're just like a vampire

I would love to live your life  
party all the time and stay up all night

I wonder what it's like  
to never see the light  
your heart is full of darkness  
and you know that ain't right  
but I'm not one to judge  
cause I'm so deep in love  
Purity my deepest insecurity is us  
This pain I hold inside  
has me so furious  
but I can't even hate you  
cause you're so mysterious  
delusions  
these illusions  
you keep on usin' me  
Vampire!

You took my broken heart  
and sucked it even drier  
you're such a great liar  
you're just like a vampire
