

## Machine Bitez #14

Gorillaz

Talking about Elton, he came on his private jet

Did he?

Yeah, I... I believe you spoke to him, didn't you?

Yeah, I spent several hours with him actually  
We shared a sandwich

Noodle, where were you during that whole thing?

Well, I was making sure Elton was well watered because great minds need moisture

Y'know you're saying 'six-black', it's pronounced 'black'

I know, I know, I KNOW!

You even said that to his face when we met him

I know, I was just having a joke

It went for days

Yeah, I do tend to milk it

What a dude to have on board though  
Something about him, I can't put my finger on it

I think he'd prefer it that way

You mustn't put your finger on it  
That was in his contract

Don't put the finger on the 6LACK
