Gorillaz

Hey, I don't mind change  
I don't like hate (Nah)  
See when the sound system break  
We make the system shake (Bully)  
When a girl wanna swing my way  
Play street with the street that I played  
But I'm on a street over here, all saints  
Imagine no saints when you wake, hey  
That's a good taste, hm, that's a good space  
Hey, this ain't my place  
Like that's some real wave (Hm)  
I'm missing so deeply  
Or put that shit on my grave  
I buck and sway (And sway)  
Ten toes for the rave in the ring, hey (Let's)

I love carnival beers (Go)  
It don't feel the same (Let's)  
That's cool, don't get in my way (Go)  
In fact, don't migrate  
(Let's) Yeah, and we like champagne  
But we like Red Stripe and we like rave (Go)  
It don't feel the same  
That's cool, don't get in my way (Let's go)

Oh, back in day  
Notting Hill weren't no film  
Tell the boys on my granddad outside, buy it back  
Take 'cuz his bones like stone (Hm)  
Salon in Ireland, they were really out there in the field  
When the vibe was real, that's why I get out of my feels (Let's go)  
And I know that I can't fucking live here still (Go)

It don't feel the same (Let's)  
That's cool, don't get in my way (Go)  
In fact, don't migrate  
(Let's) Yeah, we like champagne  
But we like Red Stripe and we like rave (Go)  
It don't feel the same  
That's cool, don't get in my way (Let's go)

Yeah, it's just the same as I thought it would be  
When I was in carnival  
I followed your principle  
Do you really think I'd leave you?
