

# Simplicity

Gorillaz

It's starting to pour  
Why don't we get out in it and dance on the pavement? (Yeah)  
Abandon your wars  
The sky and thunder and lightning and rain are innocent  
It's tipping down, I can't see  
But I'm not really caring 'cause I'm dancing on the pavement  
Oh, say, can you see?  
The sky and thunder and lightning and heavens open for us

Shut in, don't know, no, no, to be shut in  
Don't know, not meant to be shut in  
Don't know, camera, sicken, now come, you're alive, oh  
It's taking me out (Simplicity)

Nighttime and I go smooth some off  
(Little bit of news)  
Negative, now it's red and I  
Chime in strong  
(Little bit of news)  
Are you ever really lost?  
You're cutting cardboard  
Watchers waiting, we had names  
We had suspects, but a box set caught your eye  
And I was forgotten, I was forgotten  
I am the architect of this delusion  
The burgeoning load, one billion  
These are amazing times  
The past is a place where records take off  
What now, a burnished plaque

Shut in, don't know, no, no, to be shut in  
Don't know, not meant to be shut in  
Don't know, camera, sicken, now come, you're a loss

Simplicity  
Wood pigeon, always you  
(Save her, save her, save, ooh)  
Ingloriously  
(Save, save, saving me, oh)  
I always hear you, mmm  
(Me, oh)  
Simplicity  
(Save, save, ooh, oh)  
Simplicity  
(Ooh)  
Simplicity  
(The sky it could make it rain instead)  
Simplicity
