

# The Pink Phantom

Gorillaz

You've more or less forgotten me this summer  
I can't hide my disappointment  
I was on my way in the Phantom V  
The one you gave away

Try to tell you that I love you but I'm choked up  
You forgot and that makes me feel like no one (Summer nights)  
Were you even really there? Did you ever really feel?  
Wait, I got so many examples of all of the good times we had  
Long summer nights (Summer nights)  
Held you a long time, put your name in my rhyme  
Refresh your memory of where you wanna be  
The Phantom's on the way, she's comin' down the street

I tried to get to Atlanta  
On a peach blossom highway  
I'm tryin' to put these puzzles out of mind  
In a sky made of diamonds  
Where the world fell silent  
I'll be waiting for you on the other side

Summer lights (Everyday, everyday)  
Sometimes (Ride where the summer goes)  
Summer nights  
Every night  
Summer nights

I tried to say I love you  
But you didn't listen (Summer nights)  
I tried to give you everything you might need (Summer nights)  
In a sky made of diamonds  
And where the world is flawless  
I'll be waiting for you on the other side

Of summer lights, summer lights  
Hold it in for a long time  
Summer lights, seems to me I'm in a dream  
Behind these summer lights

The Phantom is coming  
You forgot and that makes me feel like no one  
She's crossing over the line  
Wait, I got so many examples of all of the good times we had  
Seems to me I'm in a dream (Long summer nights, I loved you a long time)  
(Put your name in my rhyme, refresh your memory)  
Behind these summer lights (Of where you wanna be, the Phantom's on the way)  
(She's comin' down the street)  
Sometimes
