

Light It Up

Gossip

Ooh, satellite burning down into flames
I'd do it all over again

Ooh, heaven is wide awake
Working in mysterious ways, ooh

Watching the light as it's dancing on you
Hang on for delight as you pace for the truth
Watching the light as it's dancing on you

Ooh, start a fire
Let it rage, burn it up
Watch it go down in flames
Open book, turn the page
Start it all over again
Rip it up, tear it down
Let it wash away in the rain

Do it for me if you can capture the energy
Lying between the sheets and me, ooh

Watching the light as it's dancing on you
Hang on for delight as you pace for the truth
Watching the light as it's dancing on you

Ooh, start a fire
Let it rage, burn it up
Watch it go down in flames
Open book, turn the page
Start it all over again
Rip it up, tear it down
Let it wash away in the rain
And you can start it all over again

Ooooooooooh, ooooooooooh, ooh, ooh
Ooooooooooh, ooooooooooh, ooh, ooh

Watching the light as it's dancing on you
Hang on for delight as you pace for the truth
Watching the light as it's dancing on you
