

War

Gossling

So I sink in my thoughts
I see the fear in your eyes that it's brought
I can't be by your side
How can I know even with all my senses alive?

Slowly fades away
Can easily blend so thoughts don't stay
Sounds that stop you cold
I'll never know feelings so low

I wanna know if a crashing waves feels like war, if it feels like war

I wanna know if a smashing glass sounds like war, sounds like war.

How could I ever feel madness a terror when here is so still?

Sounds that stop you cold
I'll never know feelings so low
I wanna know how a heart stays whole through war, how it stays through war
I wanna know how pain is ignored through war, ignored through war

I wanna know if a crashing wave sounds like war, like war

I wanna know if a crashing wave feels like war, if it feels like war

I wanna know if a smashing glass sounds like war, sounds like war.
