Baby what do I do
I shouldn't be like this, this is bad
I saw a woman
As if she was in a spotlight, this is bad

You have thin make up and pretty lips, softened up
You have eyes that I can get lost in
I'm afraid to lose everything I have to have you
But I don't think about being frightened

You have different eyes among people
Who want others to be perfect
I know that beyond your mask you are
The only person who sees my true intentions
You are the one

I can't, it hurts
My face gets red even though I don't have a fever
I can't anymore, actually I
Want to be just a man before your eyes
If you're okay with me like this
I will throw away everything and come to you
It hurts I don't have a fever but
My face gets red

Don't you know I need you
I have fallen for you girl
Until early morning early morning no I can't I can't
I want to be with you, all I can think of is you
I can give up everything so come to me uh

You have different eyes among
People who want others to be perfect
I know that beyond your mask you are
The only person who sees my true intentions
You are the one

I can't, it hurts
My face gets red even though I don't have a fever
I can't anymore, actually I
Want to be just a man before your eyes

If you're okay with me like this
I will throw away everything and come to you
It hurts so much I don't have a fever but
My face gets red

I will come to you carefully
Don't run away if I get there too quickly
I come to you step by step
It feels like you're looking at me too

My breath is filling up my chest
I think I'm okay for now
Please come to me before my heart explodes
If I let you go I think I'm going to die
The dusk is setting
Answer me before this night comes
That you don't want to let me go either

I can't it hurts too much
My face gets red even though I don't have a fever
I can't anymore actually I
(I can't anymore actually I)
Want to be just a man before your eyes
If you're okay with me like this
I will throw away everything and come to you
It hurts too much Even though I don't have a fever
My face gets red
