Hard carry, hard carry

Welcome to my world, let's do this
Call me an issue maker, I'm so ill
Wherever I go, the mood go higher
It's so loud outside the place, crazy energy
How I'm doing? Everybody knows it
But I'm not full yet, hungry
Whatever it is, I won't lose spirit
In other words, I have a fighting spirit

Once I appear, the game is over
I get everything I want
I know how to flow with the water
Again today, I do what I have to, hard carry
Let's fly again, fly again, fly again
I got this right (I got this right)
Don't worry about tomorrow (Don't worry)
Today, I'll hard carry only for you

Hard carry
Let it flow, let it flow now
Shake you up, put you up and down, hard carry
Let it flow, let it flow now
Shake you up, put you up and down, hard carry

I've never lost a game before
I always see the end, overflowing with passion
We have slight foam but we don't lose when
It comes to playing - a skilled gambler
The password and ID to this atmosphere, save it
A lot of people call me out again today
After the performance is over, I'm on the plane again
No other comfortable pillow than a cloud

Once I appear, the game is over
I get everything I want
I know how to flow with the water
Again today, I do what I have to, hard carry
Let's fly again, fly again, fly again
I got this right (I got this right)
Don't worry about tomorrow (Don't worry)
Today, I'll hard carry only for you

Hard carry
Let it flow, let it flow now
Shake you up, put you up and down, hard carry
Let it flow, let it flow now
Shake you up, put you up and down, hard carry

If you wanna get this, do as you did
Without a care, just let it be
I wanna be light in the darkness
I just wanna blow your mind
I just wanna show my mind

Hard carry

Hard carry

Hard carry, hard carry

Hard carry, hard carry

Hard carry, hard carry

Hard carry, hard carry
