GOT7
Every single cell in my body reacts
From my head to my toes, everything reacts

It was my first time, feeling that way
I've never felt it before
So I quickly fell for you

I know that the sweeter it is, the more dangerous
The more dangerous it is, the sweeter it is
But I didn't wanna lose you

But my prediction was exactly right
You changed in just one moment
You used my innocent heart
You played me like a doll
Throwing me away when you got sick of me
I hated you so much for that but

My eyes react, my ears react
When I see you

When I hear your voice
My entire body reacts, it reacts first
I really don't want to but what do I do?
I can't control myself

No no no no no no no no
Every single cell in my body reacts
From my head to my toes, everything reacts
No no no no no no no no
Every corner of my body reacts
When I see you, it automatically reacts

But I still had that small belief
That you will love me
So even when I gave you my all
It didn't feel wasteful

But the more time passed
The more bold and indifferent you became
So you gave me a deeper scar
And I was in even more pain

My eyes react, my ears react
When I see you
When I hear your voice
My entire body reacts, it reacts first
I really don't want to but what do I do?
I can't control myself

No no no no no no no no
Every single cell in my body reacts
From my head to my toes, everything reacts
No no no no no no no no
Every corner of my body reacts
When I see you, it automatically reacts

When I knew it was a trap, it was already too late
I tried so hard but I couldn't escape
It's too late, I'm slowly sinking
But as if you're ridiculing me
The poison in my body keeps spreading
What do I do? But why do I like this trap?
Oh my, and why is this poison so sweet?
Is it that I can't escape or that I don't want to?
I don't know either, I just like you so much

My entire body reacts, it reacts first
When I see you
When I hear your voice
It keeps reacting, it reacts again
I really don't want to but what do I do?
I can't control myself

No no no no no no no no
Every single cell in my body reacts
From my head to my toes, everything reacts
No no no no no no no no
Every corner of my body reacts
When I see you, it automatically reacts
