You waited so long, I'm so sorry

Now I made up my mind, are you ready?

I was lost for such a long time

But don't worry now, I won't ever leave again

Each time you called me, I wasn't there, silence

But don't worry, I've arrived, shall we dance

Let's raise our glasses, now hold my hand

From now on, I won't ever let you go

It has started, our romance

You're ready and I'm ready

There's no need to be afraid, no need to hesitate

Let's go up up, our love

It has started, our romance

You're ready and I'm ready

There's no need to be afraid, no need to hesitate

Let's go up up, our love

(Never ever) ever gonna let you go

I won't ever leave you again, don't worry

Baby you're mine, mine, mine

(Never ever) ever gonna make you cry

I won't ever make you again again, don't worry

Baby you're mine, baby you're mine

As much as I thought about it, now I'm sure

All in, I'll bet all of me

I promise, from now until eternity

I'm yours, You're mine woh

Let's sweat, Let's try it

Let's make a contract in our hearts, let's sign it

Get the ink, Get the pen

I'm not hesitating now

It has started, our romance

You're ready and I'm ready

There's no need to be afraid, no need to hesitate

Let's go up up, our love

It has started, our romance

You're ready and I'm ready
There's no need to be afraid, no need to hesitate
Let's go up up, our love

(Never ever) ever gonna let you go
I won't ever leave you again, don't worry
Baby you're mine, mine, mine
(Never ever) ever gonna make you cry
I won't ever make you again again, don't worry
Baby you're mine, baby you're mine

Every night, I was confused
I wasn't sure if I could protect you
But the more time passed
The clearer it got (I missed you girl)
I keep thinking about it the way you looked at me
Baby you belong to me

(Never ever) ever gonna let you go
I won't ever leave you again, don't worry
Baby you're mine, mine, mine
(Never ever) ever gonna make you cry
I won't ever make you again again, don't worry
Baby you're mine, baby you're mine

I'll never ever ever never ever
I'll never ever ever never ever
I'll never ever ever never ever
I'll never ever ever never ever
