Turn on the engine, let's do it my way
Run fast, just do it my way
Fly high, skyway
I will take you to skyway

Hey seatbelt on tight baby
Get in, hurry get in
Make sure your snapback doesn't fly off
I don't go over the speed limit
Get in, hurry get in
You can relax and get in

Endless and tall skyway
I will take you above it
Don't follow anyone from now
Promise me that you'll only get in our car
Like when you pass the tollgate
You are the Hi-Pass next to me
We won't stop now we won't stop now
I will take you to skyway

My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ayyy
My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ayyy

Lock my fingers with yours, that's your seatbelt
Close your eyes and it's the next level up, level up that
My arms and legs are a off-roading four wheeler
Rough roading makes the quality of the ride a hundred
Times better - Put your ear on my chest, it's a six-piston
Heartbeat - Safety first, I will take care of you for real
There's no onflight announcement
But I'm a microphone checker
So sit tight you better

Don't worry about your fear of heights
It's not scary even if we're out in space
My heart is the oxygen tank outside the aerosphere
My heart is the oxygen tank outside the aerosphere
I will take you even if I have to burn my whole body
There is no limit, myself is the only limit
Higher and higher, go with me, no limit now
I will take you to skyway

My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ayyy
My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ayyy

The moonlight is just like a spotlight
It brightly shines
The path in the darkness
Starlights are the navigation
Follow the maze, ride with me ride with me
Hold onto me tight, fly with me fly with me

My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ay woah
My heart is the skyway that burned you
Tonight, beyond the moonlight
Let me hear you say ayyy
