Bioluminescence

Goth Babe

I feel her skin and hold her tight
Make our way for the ocean light
I slip into the clearest blue
A sea of stars all around you

We swim for the sea on a lucid night
And make our way through the island's tides
We swim through the stars on a lucid night
And make our way through the ocean stars

And I wanna wait for
I wanna wait for
Wanting a dream world
A dream world

And I wanna wait for
I wanna wait for
Wanting a dream world
A dream world

Folding tide as we swim below
The fish around begin to glow

We swim for the sea on a lucid night
And make our way through the island's tides
We swim through the stars on a lucid night
And make her way through the ocean stars

And I wanna wait for
I wanna wait for
Wanting a dream world
A dream world

And I wanna wait for
I wanna wait for
Wanting a dream world
A dream world
