

## Canary Islands

Goth Babe

You know that I've gotta go now  
Wanna fly away from this place  
You know that this is the way to my heart  
We'll sail the south Canaries  
We can go all the way to space  
You know that this is the way to my heart

I'm waiting for you, you  
I'm waiting for you, you

I'm waiting for you, you  
I'm waiting for you, you

You know that I've had this feeling  
Weather's changing and it's getting too cold  
You know that this is the way to my heart  
We'll sleep on a sailboat  
And cry until we get real old  
You know that this is the way to my heart

I'm waiting for you, you  
I'm waiting for you, you

I'm waiting for you, you  
I'm waiting for you, you  
I'm waiting for you, you  
I'm waiting for you, you  
I'm waiting for you, you  
I'm waiting for you, you
