

Colours

Goth Babe

And you, and you are seeing all the colours that are off of me
And I, and you are showing something better you're not off of me

And you, and you are seeing all the colours that are off of me
And I, and you are showing something better you're not off of me

And you, and you are seeing all the colours that are off of me
And I, and you are showing something better you're not off of me

And you, and you are seeing all the colours that are off of me
And I, and you are showing something better you're not off of me
