Goth Babe

I need a moment
I've felt alone but I swear I'm okay
When I was growing
I feel I might have been a little late
She's got the money
But I still sleep alone in my car
I'll call you honey
And when we talk I'll take it way too far

I promise I'm fine
But how much longer can I go about

I promise I'm fine
But how much longer can I go about

I promise I'm fine
But how much longer can I go about

I promise I'm fine
But how much longer can I go about
