

Encinitas

Goth Babe

Take me out of this
I want something fresh
I contemplate the fears
Of this hemisphere

Girl, I want something that keeps me alive
And I only feel lonely away from your body
And just for a moment, I wish I could think of
The ways that I'd be, with how you're with me, oh
With how you're with me, oh

And the ways that I've
Fucked her in my mind
I wanna leave it all
For the road that calls

Girl, I want something that keeps me alive
And I only feel lonely away from your body
And just for a moment, I wish I could think of
The ways that I'd be, with how you're with me, oh
With how you're with me, oh

Girl, I want something that keeps me alive
And I only feel lonely away from your body
And just for a moment, I wish I could think of
The ways that I'd be, with how you're with me, oh
The ways that I'd be, with how you're with me, oh
