

## Her Vacation

**Goth Babe**

Oh only just a little  
Darling won't you wait and find  
I only bear her heart strings, does she find a fake cry  
It's lovely when you're over  
But honey it's just not the time  
I only bear my heart strings, do I see her eyes shine  
And see her eyes shine

Take what you want to, darling I have got to go  
Take what you want to, sorry that I'm usual
