

I Wanna Help Your Mind

Goth Babe

You know that I would wait in line
You know that I wanna see you shine
I've held you there as an open wound
We need to drive along the coast and be alone

I'd rather wait for a healthy you
I've found a way out of here, it's true
We'll feel alive and the sun will shine
I wanna help your mind

You know the time we surfed till night
Not another way of feeling alright
Stripped our clothes all along the beach
Held each other's hands and jumped into the sea

I'd rather wait for a healthy you
I've found a way out of here, it's true
We'll feel alive and the sun will shine
I wanna help your mind
