

And I, began the car and start to cry  
I need a moment only for the time  
The water has me feeling fine  
And you, you slept alone all through the eve  
And darling, why'd you wanna come with me?  
The water had me start to breathe

Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?  
Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?

And I, began the car, I'm feeling fine  
I need a moment only for the time  
The water has me feeling fine  
And you, you slept alone all through the eve  
And darling why'd you wanna come with me?  
The water had me start to breathe

Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?

Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?  
Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?

Time  
Wanted me to wait all night  
And why  
Do you wanna wait all night?
