

Running Around

Goth Babe

Feeling only but a dream
Feeling only but the ways that you made me
Only seeking better times
Only planning till her heart shines

Fears start running around
Head wants another way but heart wants it all to stay
Fears start running around
Head wants another way but heart wants it all to stay

Fears start running around
Head wants another way but heart wants it all to stay
Fears start running around
Head wants another way but heart wants it all to stay

La la la la la la la la

Head wants another way but heart wants it all to stay
Fears start running around
Head wants another way but heart wants it all to stay
Fears start running around
