

Sometimes

Goth Babe

I see the sun when it shines and others will not only see
And I've ignored all the times that you might've wanted something to do

I've got my heart on backwards I spend my only days with you
I've got my dreams standing tall I wonder if she has a clue

Sometimes I wanna know what you're thinking about
Sometimes I wanna know what it's all about

I'll see the stars in the morning in the clouds when the sun goes down
She's got me feeling so high no wonder she sees me frown

I see the sun when it shines and others will not only see
And I've ignored all the times that you might've wanted something to do

Sometimes I wanna know what you're thinking about
Sometimes I wanna know what it's all about

Sometimes I wanna know what you're thinking about
Sometimes I wanna know what it's all about
