Taking Over The Sun

Goth Babe

And I don't wanna wake up
These feelings gotta go
Just wanna keep my eyes shut
I'd love to change the tone

And I was looking at the clouds up high, ooh
And I was thinking that I need you tonight, ooh

Oh, I wanna go
I know that you are the one
Oh, I wanna go now
We're taking over the sun

I surfed until the sun died
Staring at the sea
It's good to see myself back
I can see clearly

And I was looking at the stars up high, ooh
And I was thinking that I need a surprise, ooh
And I was looking at the stars up high, ooh
And I was thinking that I need a surprise, ooh

Oh, I wanna go
I know that you are the one
Oh, I wanna go now
We're taking over the sun
Oh, I wanna go
I know that you are the one
Oh, I wanna go now
We're taking over the sun
