

The Tongass

Goth Babe

I knew faith was in your heart
I had faith in my dreams
I had that feeling right from the start
As we walk through the trees

I knew the world wouldn't fall apart
We'd set aside all our greed
I knew we'd get there right from the start
To see the ocean recede

I saw the salmon swimmin' far
Heard the wolves the other day
I knew the mountains would tell each star
Let's take care of this place

As the world spins slowly, I feel so lonely as I want to save y
ou
Hoping one day darling, we'll all be starting, to make you bran
