

Day turns to night  
Is time on my side?  
I was made to be broken  
Eleven days a week I miss you  
God damn sun  
That shone in your heart  
I wish I never woke up  
And this is where our worlds have parted

So we are!  
So we are!  
So we are!  
So we are!

Those days have gone  
Darkness has won  
If you look at the horizon  
Can you catch a glimpse of hope?  
Nothing has changed  
Yet everything changes  
Made to be broken  
But everything can be repaired

So we are!  
So we are!  
So we are!  
So we are!

Night turns to day  
And I'm wide awake  
I know that I have been dreaming  
May all my dreams one day come true  
Day turns to night  
Is time on my side?  
I wish I never woke up!  
And this is where our worlds have parted!

So we are!  
So we are!  
So we are!  
So we are!
