

Where no-one knows you  
Don't bore them with your defense now  
Where no-one knows you  
The time has come to realise  
That no-one wants you  
You don't have any friends here  
'Cause no-one knows you  
You fade into the dust and find

Darkness  
Is all that I want tonight  
You save me every time  
Darkness  
Is all that I want for life  
You saved my life tonight

Where no-one knows you  
Don't bore them with your defense now  
You know you're an outcast  
The time has come to roll the dice  
But why would it change them  
They choose to live life in shallowness  
Blind as bats  
One day they might realise

Darkness  
Is all that I want tonight  
You save me every time  
Darkness  
Is all that I want for life  
You save my life tonight

Darkness

Where no-one knows you  
Don't bore them with your defense now  
Where no-one knows you  
The time has come to realise  
That no-one wants you  
You don't have any friends here  
'Cause no-one knows you  
You fade into the dust and find
