Gothminister

Death is coming  
It's coming fast  
It's got a thousand faces  
Behind the dead skin mask

Death is coming  
I am inviting it now  
I've got a thousand reasons  
And I am prepared to die

If darkness comes my friend  
With no salvation  
We cannot live forever  
Nothing can be done

Death is coming  
It's coming fast  
It's got a thousand faces  
Behind the dead skin mask

Life is a curse my friend  
Our days are like a fading shadow  
So maybe this world is  
Much better off without  
The two of us

Death is coming fast

When darkness comes my friend  
Will we find salvation?  
This evilness can't live forever  
It must come to an end  
But then the day might come  
When Hell floats over  
I've had a dream since bitch  
That the dead shall reign the Earth  
Death is coming  
It's coming fast  
Death is coming  
Death is coming  
NOW!
