

# Creepy Shadows

Gothminister

And when the demons are crawling out  
We will sit her, still awake  
We are waiting for the great parade  
And the monsters lurk about  
They are ready to get loud  
And your heartbeat's on the high line now

Run, run  
Run for your life  
You gotta run and hide  
Till the morning light  
Breathe, scream  
Nothing is real  
You gotta fight your fright  
And follow the beast

And we all  
Had a dream  
To be glorious and free  
And we know  
Who we are  
We'll be fighting on till the break of dawn  
And we all  
Play our part  
We are hiding in the dark  
We don't know  
Who they are  
All those creepy shadows

And if you wanna kill the truth  
Will you know what's best for you?  
There's no burning halo on your head  
Do you remember, as a child  
From the beast you used to hide  
Is it time for you to join the other side?

Run, run  
Run for your life  
You gotta run and hide  
Till the morning light  
Breathe, scream  
Nothing is real  
You gotta fight your fright  
And follow the beast

And we all  
Had a dream  
To be glorious and free  
And we know  
Who we are  
We'll be fighting on till the break of dawn  
And we all  
Play our part  
We are hiding in the dark  
We don't know  
Who they are  
All those creepy shadows

Oh  
We're all gonna die  
Night  
Will come to us all  
On and on  
We fall towards  
Her cold embrace  
It is time for a change

This is who we are  
Who we are  
Deep inside

And we all  
Had a dream  
To be glorious and free  
And we know  
Who we are  
We'll be fighting on till the break of dawn  
And we all  
Play our part  
We are hiding in the dark  
We don't know  
Who they are  
We'll be fighting on till the break of dawn  
And we all  
Had a dream  
To be glorious and free  
We don't know  
Who they are  
All those creepy shadows
