

Demons

Gothminister

You are the one
With something to die for
You took the fall
And now you rise again

Do you believe
This is the night
When all your demons come to life
Do you believe
That the whole universe is greater
Than their reality

You are the one
But they tried to pin you down
When shadows fall
Your Kingdom waits for them

Do you believe
This is the night
When all your demons come to life
Do you believe
That the whole universe is greater

Do you believe
Shine like a star
Show them who you really are
Cause you believe
That the whole universe is greater
Than their reality

And we live in a dream
It is who we are

Do you believe
This is the night
When all your demons come to life
Do you believe
That the whole universe is greater

Do you believe
Shine like a star
Show them who you really are
Cause you believe
That the whole universe is greater
Than their reality

Cause you believe
That the whole universe is greater
Than their reality

And we live in a dream
It is who we are
