

# I Am the Devil

Gothminister

In the days of the ancient times  
A betrayal did occur  
What appears to be the absolute past  
Shall again become the present

I am the One  
Evil has come  
Time to replace  
The unbelievers  
I am the One  
And I understand my fate  
We must believe  
We've been deceived  
Time to remove the wolf  
From our throne  
Time to shake the underworld  
It's coming to an end

I am the Devil  
I am the Devil

They seized the old Dragon  
The first and the last of the serpents  
And thought they would bind him for a thousand years

An Angel has fallen from heaven  
This demon will fight till the end  
The fullest of moons will be rising  
And the land will be ours again  
These times will make our future now

I am the One  
Evil has come  
Time to replace  
The unbelievers  
I am the One  
And I understand my fate  
We must believe  
We've been deceived  
Time to remove the wolf  
From our throne  
Time to shake the underworld  
It's coming to an end

The darkened sun, the blood will flow  
We're going to regain our throne  
The pain will be gone

I am the Devil  
I am the Devil  
I am the Devil
