

# Sinister

Gothminister

Into the deep  
There's no return  
See the starlight fade away  
I watch myself  
Become nothing more  
Than a slave to

Life  
Is this the life  
We've been craving for  
How?  
In a distant past  
Lies our future

Sinister  
Life  
Sinister  
Lifestyle

And all my life  
Has been a chase  
For the starlight to shine through  
In spiral eyes  
A dying fire  
That has guided me through

Life  
Is this the life  
We've been craving for  
How?  
In a distant past  
Lies our future

Sinister  
Life  
Sinister

The moon shook  
The ocean glazed  
Scary monsters in deep space  
And when my time arrives  
I will be ready  
To do it all again
