

Bad News

Gotthard

Bad news!

You made your way
You had your run
You had your day in the sun
You made your friends and one by one
Impressing with the things you said you've done

Yeah!

We love you when you're up (yeah)
We love to hang around (yeah)
We never get enough until the shit goes down

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news
Bad news travels fast

You made their day
They had their fun
They stuck to you like sex and bubblegum
And then a news flash out of the blue
Drags you through the mud and walks all over you

Yeah!

And when we've had enough (yeah)
We'll run you out of town (yeah)
We love to string you up until we cut you down

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news
Bad news travels fast

(Bad news, bad news
Bad news, bad news
Bad news, bad news
Bad news, bad news...)

Yeah!

We love to drive the nail
We love to wait around
To see you crash and fail
And kick you when you're down

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news
Bad news

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news

Bad news travels fast
Bad news travels fast
Bad news...
