

Burning Bridges

Gotthard

I keep burning bridges
Never turning back around
I love the way it feels, I love the way it feels
I keep burning bridges
Never turning back around
I love the way it feels from the other side

I should fix my life
Do what I'm told is right
Try to stay in line Be like everyone
I should know my place
Swallow my pride with grace
And keep my crazy thoughts to myself

But I keep burning bridges
Never turning back around
I love the way it feels, I love the way it feels
I keep burning bridges
Never turning back around
I love the way it feels from the other side

I should act my age
Cause ageing's all the rage
Socialise with folks I don't care about
Make the best of friends
And we can all pretend
Cause we might get something out of it

But I keep burning bridges
Never turning back around
I love the way it feels, I love the way it feels
I keep burning bridges
Never turning back around
I love the way it feels from the other side

I wanna be able to say that I did it my way, I did it my way

I keep burning bridges
Never turning back around
I love the way it feels, I love the way it feels
I keep burning bridges
Never turning back around
I love the way it feels from the other side
Burning bridges Burning bridges
