

## Cheat & Hide

Gotthard

Looking back I wonder  
How long have you being lying to me  
Guess, no matter how hard I try  
I'll never solve the mystery

Our life is a game  
A game we play  
Which rules I've never seen  
And day after day  
Night after night  
Makes me wanna scream

I don't wanna die  
For a woman like you no more  
I had it all before  
I will take it no more  
Gotta stop this cheat'n hide

Who said we're in for trouble  
All I know he sure was right  
We start a night in heaven, and  
We end it in a fight

Our life is a game  
A game we play  
The winner takes it all  
But lady luck is blindfold  
Your back's against the wall

No I don't wanna die, no more.
