

# Dig A Little Deeper

Gotthard

Take a little chance  
Take a little time  
Take a little something  
From the wisdom of a child

Let's try something kind  
Maybe once in a while  
Maybe help out a stranger  
And go the extra mile  
Give a little help  
Give a little hope  
Give a little something  
And watch the seedling grow

On and on we all have a song  
And on and on we all sing along  
Let's try to do this once again  
Let's give peace a chance

Find a little grace  
Dig a little more  
Dig a little deeper  
And make the world a better place  
If we never turned away  
And if we never lied  
And tried a new sensation  
And just forgot about pride

On and on we all have a song  
And on and on we all sing along  
Let's do this once again  
Let's give peace a chance  
Give peace a chance

On and on we all have a song  
On and on we all sing along  
We can't just wait and hope  
We can't just wait and see  
Let's do this once again  
Let's give peace a chance

Like when you were child  
When everything was right  
When all you needed was attention  
And the love behind a smile
