

Father Is That Enough?

Gotthard

You came into my life...boy
I didn't find the words to let you know
We were like strangers, heaven knows
With a many ways to go

But it's over now
Right before we started
It's all over now
It's weather blown away

No, you don't need to sacrifice
Nor hide the rising sun
Made a million, got it all
Father, is that enough?

Remember I was lonely
I was nowhere
Couldn't stand the pain I wore
And yeah, I keep learning
Live is living
So much more than words can say
But it's over now
No gambling with my soul
It's all over now
I found my way to go
