Get Up 'n' Move On

Gotthard

I'm grooving on my own, gotta make it all mine Faster than light and I know I'm alive Feeling like a race that I just gotta own Think out a move and I go, go, go, go, go, go

I'm moving on alone cause I'm feeling the drive Chasing the dream that you rolled on the line Thought I had a chance, made a fool outta me And now it's the sound of a mean old me

On the line, all your words and all that jive Speak your mind, all your words and all your lies Rolling a face in a bullet proof case Was I the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue Nothing to say to my face? Get up'n'move on

Now I'm in the zone and I got it all right Open my eyes and the day and the night Only one thing and I gotta agree The best things in life, no they ain't that free

On the line, all your words and all that jive Speak your mind, all your words and all of your lies Rolling a face in a bullet proof case Was it the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue Nothing to say to my face? C'mon...
Why don't you let it all out? It's on the tip of your tongue Nothing to say to my face? Get up'n'move on

Why don't you spit it all out? It's on the tip of your tongue Nothing to say to my face? C'mon... C'mon... Why don't you let it all out? Another slip of your tongue Nothing to say to my face? C'mon Get up'n'move on... C'mon... Get up'n'move on Get up... Get up... Get up'n'move on
