

I Want It All

Gotthard

I got a one way ticket, my motor overdrive
First place winner where the loser gets no prize
A whip crack spirit, a one track mind
Keep the meter running this ain't gonna be refined

I'm gonna draw the line, I'm gonna make it long
I'm gonna make it mine before the rage is gone

I want it all... I want it all... I want it all
You know that I'm on a roll
I want it all... I want it all... I want it all
And I'll be taking the call, I'm taking the call

I'm on the track, no walking, my jet pack primed
Fast ball talking and a piece of my mind
Heart rate beating, just hold the phones
I gotta do something cause it's eating at my bones

It's time to draw the line, I'm gonna make it long
It's time to make it mine before the rage is gone

I want it all... I want it all... I want it all
You know that I'm on a roll
I want it all... I want it all... I want it all
And I'll be taking, taking, taking the call

I want it all... I want it all... I want it all
You know that I'm on a roll
I want it all... I want it all... I want it all
And I'll be taking, taking, taking the fall

I want it all... I want it all... I want it all
