Only Love Is Real

Gotthard

What if we stopped the day
With a time machine
What if we changed the past
Like on the silver screen
What if we changed the world right now
What if we all agreed
What if we all agreed
That only love is real
We got a world to save
We got a world to save
And only love is real
Cause only love is real
What if we all were one
And we were all deceived
What if we dropped the guns
And just forgot to bleed
Could we believe in love
and nothing else above
What if we all believed
What if we all agreed
That only love is real
We got a world to save
We got a world to save
And only love is real
Cause only love is real
(x2)
Cause only love is... Cause only love is real
We got a world to save
we got a world to save
And only love is real
Cause only love is real
(x2)
We got a world to save, we are the voice today
We got a world to save, what if we dropped the guns
We got a world to save and only love is real
We got a world to save and only love is real
And only love is real, and only love is real
And only love is real, and only love is real
