Rescue Me

Gotthard

Save me from myself
Save me from this hell

Hypnotize…
Evil eyes

Save me from my cell
Save me, break the spell

Hypnotize…
Demonize
Computer eyes…
Cyberized

See, all my friends are here
I just can't get enough
They come as they disappear
Don't you know this is love?

Rescue me
From this psychopathic wave that I'm in
Rescue me
From a generational fuck up, down we spin
Down we spin

Save us, god can't help
Save us, William Tell

Hypnotized…
Sterilized
Sex tonight?
Siri? Right?

See, all my friends are here
I just can't get enough
Now they come, now they disappear
Don't you know this is love?

Rescue me
From this psychopathic wave that I'm in
Rescue me
From a generational fucked up, down we spin

Hypnotized…
Toxified
Flateartherized…
Rescue me…

Eyes on a lifeless screen
The simulation is real
In what can we believe?
Can I feel what I trust?
To be or not to be…
